- Network Viruses
- Spyware
- Data Theft
- Phishing Attacks
- Email Spam and Malware

95% of small and midsize businesses have an anti-virus installed, but 74% still experienced attacks last year Due to improper updating!

ComputerWorld.com

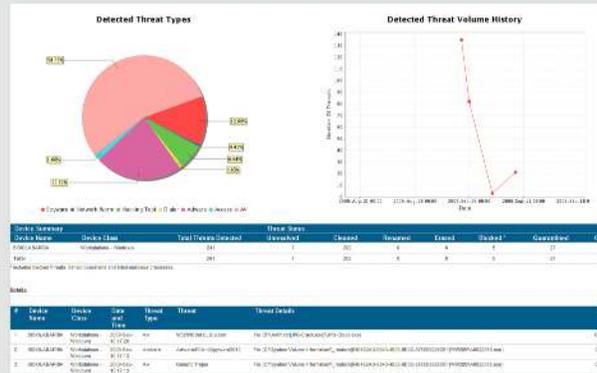

Total Endpoint Security for Your Business

What is worse than a Virus?

The Time & Money Wasted Recovering from one!

Every minute counts in today's business. Stop wasting your valuable and scarce IT resource time and energy on the selection, testing, planning, deployment, updating and trying to evaluate reports of your Anti-virus software.

CBE's Managed Anti-Virus service provides the skilled IT resources, domain expertise, centralized monitoring and management facilities, and proactive approach to ensuring the protection of your desktops and laptops against the ever present threat of viruses, spam and malware attacks.

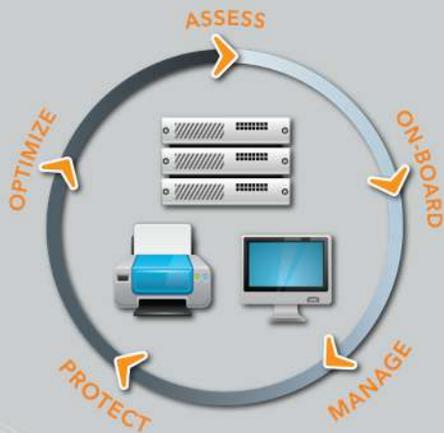

Benefits of a Managed Anti-virus solution

- **Fully Managed Solution for the Same Price or Less Than Your Anti-virus Software!**
We include enterprise class endpoint software, monitored by us 24/7, and managed by a team of technical experts that will provide you with regular reports to ensure you can see that the devices in your business are protected at all times!
- **Reduce Operating Costs**
A security incident can stop you from being 100% productive. This costs the company money in lost productivity and in lost opportunities. A single virus can hit many systems and take weeks to eradicate. Removing this risk will save you money and time!
- **Protect Your Company's Critical Assets and Information**
CBE's proactive technologies ensure an additional protection layer against all types of known and unknown malware, targeted attacks and Internet threats.
- **A Flexible Security Solution**
Our advanced security features, NOC and highly trained engineers offer the appropriate security for any size of company and network.
- **Comprehensive Reporting**
No longer will you be unsure of how well you are protected. We will provide you with reports monthly that let you know that you are safe!
- **Total Peace of Mind**
Buying an anti-virus solution, installing it, and then relying on everyone to keep it updated is a worry. Now you can rest assured that all your servers, PCs and laptops are always protected and that there is a group of dedicated experts taking care of it for you 24/7.

Device Lifecycle Management

Managed Anti-virus + Managed Patching

CBE provides complete management for your systems.

Managed Anti-malware works best when all of your systems are fully patched and completely updated.

Ask your CBE representative to discuss Complete Protection for your total environment.

Why our clients choose CBE's Managed Anti-virus Solution

Stand-alone Anti-virus Software:

- Provides a point solution to specific issues
- Requires manual monitoring and maintenance to remain current and effective
- Relies on end-user decisions for operation
- Does not provide consistent version control across desktops
- Does not provide centralized management

Managed Anti-virus:

- Provides proactive and comprehensive security, monitoring and management
- Centralizes the deployment and updating of software to ensure coverage and consistency
- Automates management processes to avoid errors and reduce costs
- Leverages expert IT skills
